Features:

- This USB adapter provides a quick and convenient way to add Ethernet connectivity to a computer without the hassle of internal installation
- This single port fast ethernet card enables you to connect your computer system to your existing network
- Supports cost-efficient twisted pair cables for speedy data transfer up to 100 meters
- With the 10/100Base-TX technology get up to 100Mbps data transfer rate over the twisted pair cable

Application(s):

- **Cost-Efficient Connectivity:** Maximize budget efficiency by transforming existing devices without Ethernet ports into powerful, network-ready tools, eliminating the need for costly hardware upgrades.
- **Compatibility Across Devices:** Ensure compatibility with a variety of devices in the public sector, enabling a standardized networking solution that caters to different equipment with ease.
- **Quick and Easy Integration:** Simplify the implementation process with easy installation, allowing public sector IT teams to save valuable time and resources while ensuring a swift transition to high-speed network connectivity.
- **On-the-Go Connectivity for Field Work:** Equip field staff with the ability to connect to Ethernet networks instantly, enhancing communication and data access in real-time, regardless of the location.

USB Micro-B
